

Core Mobile, Inc. empowers the world to respond to pandemics & infectious diseases.

Respond to Pandemics, With Just One Touch

[Watch Video](#)

Pre-Screening & Screening

A remote pre-screening and screening solution for the public, healthcare providers, and health authorities that includes risk assessment, intelligent prioritization of patients, comprehensive patient education & guidance, video consultations, lab orders and results, and navigation to test centers all within a **single user-friendly interface** available on Android and Apple iOS devices.

Tele-Health, Tele-Critical Care & Virtual Care

[Watch Video](#)

Core Mobile offers a mobile application and web portal from which healthcare providers can manage patients in acute and intensive care as an extension to the pandemic solution for pre-screening and screening. The Beyond Tele-Critical Care solution includes synchronous and asynchronous, multi-party, calling and messaging (voice, text, video, and picture), patient and asset tracking, bed/asset management, and remote, post-discharge monitoring on a **single user-friendly interface** available on Android and Apple iOS devices.

National Tele-Critical Care
